Pathway News

Pathway will be adapting a new approach to Dementia care called, "Through Their Eyes."

Through Their Eyes is a breakthrough approach to compassionate communication and care. This program was created by our parent company, GoodWorks, LLC, specifically for the memory care community in which it operates. This program is uniquely our own.

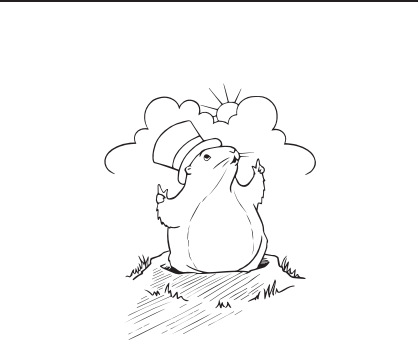

Instead of pulling our residents into "our world," we are encouraged to join "their world" and look at things through their eyes. This approach helps to redirect train of thought and helps to avoid agitation and fear.

You may see some changes in the coming weeks to the unit as we rearrange and make the unit as homelike as possible.

If you have any questions or would like to learn more about "Through Their Eyes," please reach out to Kayla or Tori.

xoxo- Kayla
